

GREASE LITHIUM MP & EP
i-GlooGrease
GREASE LITHIUM COMPLEX EP2

DESCRIPTION

i-GlooGrease LITHIUM COMPLEX is a specially developed multi-purpose lithium complex grease for lubricating all bearings for use in industrial and automotive applications.

BENEFITS

- Very good mechanical stability prolongs relubrication intervals.
- Perfect oxidation stability at high temperatures.
- Excellent EP and anti-wear performance.
- Very good corrosion resistance in wet conditions.

APPLICATIONS

i-GlooGrease LITHIUM COMPLEX can be applicable for all bearings for use in industrial and automotive applications.

TEST DATA

Appearance	Smooth grease
Copper corrosion	Pass
Colour	Blue
Resistance to corrosion EMCOR	00:00
NLGI classification	2
Water washout: @ 38 °C (%)	3
Water washout: @ 79 °C (%)	4
Thickener	Lithium complex
Base oil	Mineral oil
Four Ball Weld Load (kg)	450
Base oil viscosity @ 40 °C (cSt)	150
Timken OK load (lbs)	45
Worked penetration	265 to 295
Operating temperature (°C)	-20 to +150
Dropping point (°C)	250 min.
Oil separation (%)	5 max
