

i-GlooOil SAE 10W40 CI4 ACEA E9

DESCRIPTION

i-GlooOil AE SAE 10W40 CI4 ACEA E9 is a synthetic-based heavy-duty diesel engine oil formulated using the highest quality synthetic base stock, group II technology, and enhanced additive systems for use in low emission Euro IV, Euro V and Euro VI heavy-duty diesel engines. Developed to maximise the life of the particulate trap filter and other exhaust after-treatment devices, it is backward compatible and therefore may also be used in older engines.

BENEFITS

- Low SAPS technology, ensuring protection of the exhaust after-treatment system.
- Excellent anti-wear protection.
- Rust and corrosion protection.
- Good control of soot, sludge and piston deposits.
- Excellent oxidation and thermal stability.
- Improved fuel economy.
- Extended drain capability.
- Suitability for use in older engines i.e. backward compatibility.

APPLICATIONS

i-GlooOil SAE 10W40 CI4 ACEA E9 has been developed for use in Euro IV, Euro V and Euro VI engines fitted with diesel particulate filter traps and exhaust after-treatment devices.
